

Test Case

1. Enter Both Players Name

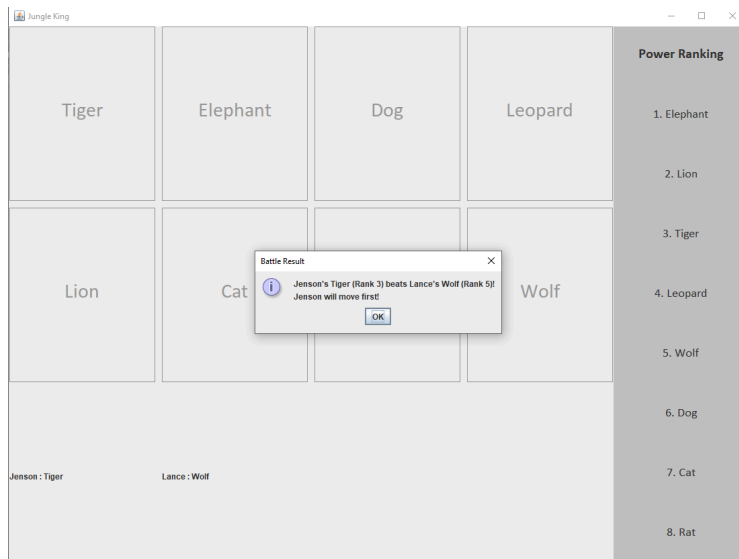

The screenshot shows the 'Jungle King' game window. The title bar reads 'Jungle King'. The main area has a green background with the title 'Jungle King' in yellow. On the right, there is a white box containing instructions: 'Instructions: Player 1 controls the top, Player 2 controls the bottom. First to capture the enemy base Wins! Only rats can cross lake blocks while tigers and lions can jump across. Be careful of traps as it drains your powers and stuns you for one turn. Animals can only capture other animals if they have the same or higher power (With the exception of Rat and Elephant). Good luck and have fun!'. Below the instructions, there are two input fields. The first is labeled 'Player 1 Name:' and contains the text 'Jenson' in red. The second is labeled 'Player 2 Name:' and contains the text 'Lance' in blue. At the bottom left, there is a blue button labeled 'Next'.

2. Pick a card to know who's gonna go first

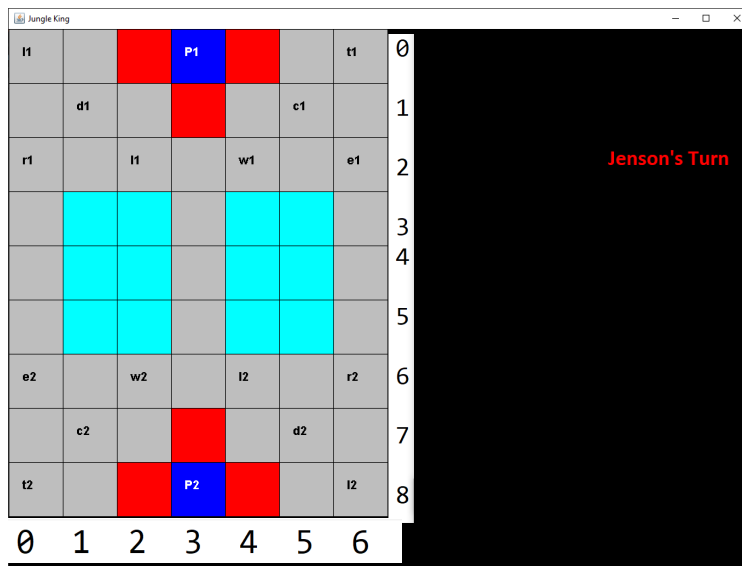

The screenshot shows the 'Jungle King' game window. The title bar reads 'Jungle King'. The main area is divided into two sections. The top section contains eight blue cards numbered 1 through 8, arranged in two rows of four. The bottom section is a light gray area with the text 'Jenson : Not selected' and 'Lance : Not selected'. On the right side, there is a gray sidebar titled 'Power Ranking' which lists the animals in order of power: 1. Elephant, 2. Lion, 3. Tiger, 4. Leopard, 5. Wolf, 6. Dog, 7. Cat, 8. Rat.

3. Jenson Picked 1 and Lance Picked 8

4. Board Screen

The Numbers below Would be the first One called and the next are the ones at the sides
Example(6,8)

The numbers Displayed are not in the actual Game Just used edited it in for the Test Case.
